Project Design Phase-II
Solution Requirements (Functional & Non-functional)

Date	29-06-2026
Team ID	23A51A05M8
Project Name	Metro Ticket Generating System in ServiceNow
Maximum Marks	4 Marks

Functional Requirements:

FR No.	Non-Functional Requirement	Description
NFR-1	**Usability**	The system should provide a simple, intuitive, and user-friendly interface that allows passengers to book metro tickets easily without technical knowledge.
NFR-2	**Security**	The system should ensure secure access through authenticated user accounts, role-based access controls, and secure data transmission using HTTPS protocols.

Following are the functional requirements of the proposed solution.

FR No.	Functional Requirement (Epic)	Sub Requirement (Story / Sub-Task)
FR-1	Metro Ticket Booking	Select Source Station Select Destination Station Choose Journey Date Enter Number of Passengers
FR-2	Fare Calculation	Calculate Fare Based on Route Display Fare per Passenger Calculate Total Fare Automatically
FR-3	Ticket Request Submission	Submit Metro Ticket Request Generate Request Number (REQ) Generate Requested Item (RITM)
FR-4	Ticket Confirmation	Display Booking Confirmation Show Ticket Details Provide Ticket Reference Number
FR-5	Notification Management	Send Booking Confirmation Email Send Ticket Details to User Notify Successful Booking
FR-6	Digital Ticket Generation	Generate Digital Ticket Create QR Code for Ticket Attach QR Code to Ticket

Non-functional Requirements:

Following are the non-functional requirements of the proposed solution.

NFR-3	**Reliability**	The system should consistently generate accurate far confirmations with minimal errors or downtime.
NFR-4	**Performance**	The system should calculate fares, process ticket bookings, and generate confirmations within a few seconds to provide a smooth user experience.
NFR-5	**Availability**	The application should be accessible 24×7 through th availability to users.
NFR-6	**Scalability**	The system should support an increasing number of users, ticket bookings, and metro routes without significant degradation in performance.
